The only other work which the royal barge master and his thirty watermen have to do is to be in attendance at the plenie which the King gives every year to the members of the royal family and his immediate friends on the Saturday of Ascot Week, at Virginia Water, in the great park at Windson, to be ready to row about any of the party who wish to go boating or ishing. They have been in attendance for similar duty whenever the King, or the late Queen Victoria, have given garden parties at Buckingham Palace, where there is a large sheet of water in the gardens.

The pay is not very large in fact, it does not exceed \$100 a year. But the office carries with it outle a number of prerogatives and nerquisites, in addition to which the uniform is furnished free of cost. The watermen have all to be men who have been admitted to "freedom of the river" and who have served their apprenticeship to one of the recognized firms on the Thames.

Several days ago our paper wrote up and published the inclosed version of "Dixie," which I contend is "out the one we sing in old Richmond, and the words are different from the old one. Will you look this over about the original, and if it is not the old war song publish a small account of it so I can use it?

The version of Dixie to which you refer and the story of its origin is altogether fictitious. While, doubtless, the lady in question wrote the poem inclosed, it is not that version of "Dixie" which is endeared to the South. We will send you through mail a copy of the correct version of "Dixie," as requested.
